			220	140	5.5	2.0	7" Round (Vert.)

TYPICAL SPECIFICATION

Range hood shall be Broan QSE1 Series.

Unit will have clean, contoured appearance with no sharp edges. Finish to be baked-on polyester paint (matte finish stainless steel). It must have a fully-enclosed bottom and dishwasher-safe, full filters.

Hood to be convertible between 3¼" x 10" and 7" round ducted (using two washable aluminum filters). Duct connectors must be adjustable to accommodate off-center ductwork.

Range hood to have an axial blade. Blower and lights shall be operated using a specially-designed, adjustable control with 2-speed rocker. Lamps to be (1) 26W fluorescent and (1) 4W night light.

Air delivery shall be no less than 210 cfm when ducted horizontally. Sound level to be no greater than 1.5 Sones/110 cfm - 5.0 Sones/210 cfm.

Air and sound ratings to be certified by HVI.

Unit shall be U.L. and cU.L. listed.

Unit to be ENERGY STAR® certified.

HVI-2100 CERTIFIED RATINGS comply with new testing technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at 0.1 in. static pressure, based on tests conducted in a state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements.
