

Gas Freestanding Range

EI30GF35J S

Luxury-Glide® Oven Rack

With a ball bearing system, the oven rack is so smooth it extends effortlessly.

Perfect Convect^{3®}

Our convection technology features a third convection element for consistently even results, up to 30% faster cooking times and even more baking options.

Power Burner™

A powerful 18,000 BTU sealed Power Burner $^{\text{IM}}$ combined with a 5,000 to 500 BTU Precision Burner $^{\text{IM}}$ for a wealth of cooking flexibility.

Sure-2-Fit® Capacity

Coordinate an entire meal — our oven features 5.0 cu. ft. of cooking space with three adjustable baking racks.

30" Gas Freestanding Range Specifications

- Product Weight 260 Lbs.
- Voltage Rating 120V / 60 Hz / 15 Amps
- Connected Load (kW Rating) @ 120 Volts = 1.8 kW (For use on adequately wired 120V, dedicated circuit having 2-wire service with a separate ground wire. Appliance must be grounded for safe operation.)
- Amps @ 120 Volts = 15 Amps
- Always consult local and national electric and gas codes.
- Make sure wall coverings around range can withstand heat generated by range.
- Linoleum or any other synthetic floor covering located beneath range, must be capable of withstanding minimum heat of 90° F above room temperature without shrinking, warping or discolouring. Insulating pad or 1/4"-thick plywood required between range and a carpeted floor.
- Do not obstruct flow of combustion air at oven vent nor around base or beneath lower front panel of range. Range requires fresh air for proper burner combustion.
- Do not install range beneath any downward-blowing, overhead vent hood or air curtain.
- Range ships with 3/4" factory regulator.

- Floor beneath range MUST be solid and level.
- Overhead cabinetry should not exceed a 13" maximum depth.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.
- Range can be installed flush to wall with 0" minimum rear clearance.
- Minimum 5" clearance required from edge of rangetop to nearest combustible wall on either side of range above 36" height.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.
- Follow all dimension requirements provided to prevent property damage, potential fire hazard, and incorrect countertop and cabinet cuts.

Note: For planning purposes only. Refer to Product Installation Guide on the web at electroluxappliances.ca for detailed instructions.

Optional Accessories

- Wok Ring (PN # 318254307).
- Simmer Plate (PN # 318254206).
- Grill / Griddle (PN # 316534001).
- LP Gas Conversion Kit (PN# PCK3400)
