

HORIZONTE ISLAND

ISLAND

COLLECTION SERIES

Horizonte Island blends an ultra thin body (only 2" tall) with glass and stainless steel to perfectly compliment the clean, architectural lines of today's modern kitchens. Horizonte features a powerful 600 CFM internal blower, combined with Elica's perimeter aspiration technology, which increases suction efficiency and allows you to operate the blower at lower speeds without sacrificing performance.

Cook up a storm and socialize without raising your voice, with Elica's patented Deep Silence System, which reduces sound levels at all speeds by over 40 percent. Futuristic electronic glass touch controls operate the 4-speed blower and halogen lighting, which elegantly fade out of sight when not used.

SPECIAL FEATURES

Perimeter Aspiration: First developed by Elica, this technology literally turned the market 45 degrees and opened the door to hoods that could be mounted on the wall like picture frames. The technology draws air through a narrowed channel around a face plate, which increases suction, without increasing blower speed or energy consumption.

Elica Deep Silence: An exclusive sound deadening technology that utilizes a patented filter design, which substantially eliminates air turbulence and ultimately reduces sound levels by over 40%, compared to typical range hoods.
