INSTALLATION CUTOUT
FRONT VIEW

NOTES

Note: If installing between frameless cabinets, a 1/2" wide filler strip or side panel may be required. The filler strip will act as a spacer between the door case and adjacent cabinet and will prevent interference with cabinet door swing. The width of the opening must include filler panels.

The cutout depth must be 24"

The cutout dimensions shown allow for a full door swing and access to the pull-out racks when installed as a built-in.

The Bar Refrigerator with Icemaker can be free-standing.

The stainless steel model ZIBS240PSS can be installed flush with standard cabinetry.

- A water line must be installed for icemaker operation.

FEATURES AND BENEFITS

Automatic Icemaker on Full-Extension Slides - Makes ice automatically to ensure a ready supply

Adjustable Temperature Control - Maintains a consistent temperature

LED Temperature Display - Allows you to monitor the temperature at a glance

Removable Ice Bin - Holds up to 8 lbs. of ice

Removable Spillproof Glass Shelves - Helps contain spills for ease of cleaning

Flush Installation - Allows near-seamless integration with surrounding cabinetry

Stainless steel tubular handle - Designed to coordinate with other Monogram appliances

Stainless Steel Exterior - Convey a look of utmost polish and sophistication

LED Lighting - Places contents into clear, brilliant view

Beverage Shelf on Full-Extension Slides - Holds up to five wine bottles or ten 12-oz. cans
