Steam Chef Cooking

Steam Chef Cooking provides different feature to make variety of cook. You can cook your favourite food with cooking guide, step by step. If you simply reheat food with Steam Chef, which will keep soft and smooth.

Sensor Cook Technology

One Touch Automatic Cooking with better results! As food is cooking, a sophisticated steam sensing power levels and cooking time. Upon sensing that food is fully cooked, the microwave shuts off, preventing over or under cooking. With this one-touch convenience feature, food is automatically cooked without having to input quantities or cooking times.

Soften Button (Exclusive!):

Have you ever tried to soften butter, ice cream, cream cheese or frozen orange juice in your microwave oven? The oven has pre-defined options to precisely soften foods and it is the simplest solution to soften butter, ice cream, cream cheese or frozen orange juice.

Melt Button

Try to melt chocolate or butter in your conventional microwave oven, what happens? It splatters!! With LG's innovative MELT function, gently melt butter, chocolate, cheese and marshmallows without the mess.
