FRENCH DOOR

Seamless Look

With its space-saving cabinet depth of 24" deep, this refrigerator gives a flush finish and a seamless look to your kitchen, merging function with design.

Quick, Easy Access

Our exclusive LG Door-in-Door™ Design allows quick and easy access to healthy snacks, beverages and frequently used items for the whole family.

Stylish Super Capacity

Enjoy the style of built-in with the largest capacity counter-depth refrigerator available. With 25 cu. ft. of food storage space and a shallower depth, all flush with your countertop, you can store more food than ever before compared to other models.*

*Compared to other LG counter depth models with only 21 cu.ft of capacity

More Shelf Space

Most ice makers take up space in the fridge. Our Slim SpacePlus™ Ice System is located on the door, so you end up with more storage space on the top shelf--and you still have storage space on the door as well.

Fresher is Better

Our Smart Cooling Plus System maintains the optimal humidity and temperature levels in your fridge, which means your food stays fresher, longer. Meanwhile, a Fresh Air Filter removes odours and the Multi-Air Flow design means your food stays fresh no matter where you put it.

Call, Connect, Resolve

SmartDiagnosis™ uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.
