FRENCH DOOR

Super Capacity Refrigerator

With the largest capacity for standard width refrigerator at 30.7 cu. ft., you can store more food than ever before.

Slim SpacePlus™ Ice System

It's great having an ice maker, but not if it means you can't fit all of your food in the fridge or freezer. The Slim SpacePlus™ ice system frees up additional door bin space providing more usable shelf space and additional door space.

Smart Cooling Plus System

Smart Cooling Plus technology maintains optimal humidity and temperature levels so your food stays fresher, longer. Digital sensors constantly monitor conditions within the refrigerator, while the Linear Compressor reacts quickly to keep humidity and temperature at a level that's best to keep your food fresh. Meanwhile, a Fresh Air Filter, Dual Evaporator for freshness and Multi-Air Flow Technology design means strategically-placed vents in every section surround your food with cool, fresh air no matter where you put it.

Smart Pull™ Freezer Handle

The Smart Pull™ Handle makes opening and closing the freezer quick and easy. All it takes is a simple lift of the handle for effortless access to your freezer.

Tall Ice & Water Dispensing System

From pitchers to pint glasses: finally a water dispenser that can accommodate just about all. The water- and ice-dispenser in this LG refrigerator is one of the tallest around, with the water dispenser measuring in at an ultra- accommodating 12.6 inches.

10 Year Warranty on Linear Compressor

When you buy a refrigerator, you don't want to worry that it won't last. Because the Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10 year warranty.
