- Fully Integrated Tall Ice & Water Dispenser
- Premium Water Filtration System
- Multi-Air Flow Cooling
- Electronic Temperature Controls
- SmartDiagnosis™
- LoDecibel™ Quiet Operation
- Door Alarm

ENERGYSTAR® qualified models use at least 20% less energy

than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

Linear Compressor

FRENCH DOOR

MEGA 32.5 cf. Capacity

With the largest standard width French door refrigerator at 32.5 cf, you can store more food than ever before. More storage space means less trips to the grocery store, and a place for everything.

More Shelf Space

Most ice makers take up space in the fridge. Our Slim SpacePlus™ Ice System is located on the door, so you end up with more storage space on the top shelf--and you still have storage space on the door as well.

Fresher is Better

Our Smart Cooling Plus System maintains the optimal humidity and temperature levels in your fridge, which means your food stays fresher, longer. Meanwhile, a Fresh Air Filter removes odours and the Multi-Air Flow design means your food stays fresh no matter where you put it.

Peace Of Mind

When you buy a refrigerator, you don't want to worry that it won't last. Because the Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10-year warranty.

Call, Connect, Resolve

SmartDiagnosis™ uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.

Sophisticated Design, Inside & Out

Contoured doors, hidden hinges, LED lighting, recessed controls and a host of great interior features give your refrigerator a look as sophisticated as it is functional.
