- Door-in-Door™ Design
- Fully Integrated Tall Ice & Water Dispenser
- Premium Water Filtration System
- Electronic Temperature Controls
- SmartDiagnosis™
- LoDecibel™ Quiet Operation
- Door Alarm

Stainless Steel

ENERGYSTAR® qualified models use at least 20% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

FRENCH DOOR

Easy Access with Door in Door™

For those fly-by visits to the refrigerator, the Door in Door feature allows you to get in and get out providing easy access to beverages and snacks.

ColdSaver™ Technology

Food kept in the LG's door in door can be accessed without opening the entire refrigerator which can reduce cold air loss by up to 47% to help keep food fresh longer.

Largest Door in Door™ Capacity

The largest capacity 36 inch counter depth Door in Door refrigerator. With 24 cu. ft., you can store more food than ever before. More storage space means less trips to the grocery store.

Smart Cooling Plus System

Our Smart Cooling Plus System, enabled by LG's exclusive Linear Compressor motor maintains the optimal humidity and temperature levels in your fridge, which means your food stays fresher, longer. Meanwhile, a Fresh Air Filter removes odours and the Multi-Air Flow design means your food stays fresh no matter where you put it.

A Perfect Fit

The 36" counter depth french door refrigerator offers the largest capacity in the industry. This refrigerator can fit into smaller spaces, but it doesn't compromise on capacity, style or features.

More Shelf Space

Most ice makers take up space in the fridge. Our Slim SpacePlus™ Ice System is located on the door, so you end up with more storage space on the top shelf--and you still have storage space on the door as well.

Call, Connect, Resolve

SmartDiagnosis™ uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.

Peace Of Mind

When you buy a refrigerator, you don't want to worry that it won't last. Because the Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10-year warranty.
