KEY FEATURES

Door-in-Door®

For those fly-by visits to the refrigerator, the Door-in-Door® feature allows you quickly get in and out for easy access to beverages and snacks. Because food can be accessed without opening the entire refrigerator, it reduces cold air loss by up to 47%* to help keep food fresher longer, while conserving precious energy.

Mega Capacity

There's never been an LG French Door Door-in-Door® refrigerator this big. Its 32 cu. ft. capacity makes room for the biggest shopping expeditions, with room to spare.

Slim SpacePlus® Ice System

Ice makers are great, but not if it means you can't fit all of your food in the fridge. The Slim SpacePlus® Ice System provides the most shelf space and allows even more space for door bins.

*Percent reduction in exchange rate of air between opening the Door-in-Door® compared to one French Door for 10 seconds. Results based on testing of comparable models with same Door-in-Door® design.
