ELECTRIC/GAS DRYERS

Harness the Power of Steam

LG TrueSteam™ Technology uses a steam generator to produce real steam right into the dryer giving you unique cycle options that remove wrinkles, odours, static and allergens.

Refresh and Sanitize

You probably wish you could clean your throw pillows or children's toys. With the SteamSanitary™ Cycle, you can. It uses steam to safely sanitize items marked as non-washable.

The Quick Fix

Late for the party and no time to iron your favourite outfit? The SteamFresh™ Cycle refreshes and reduces wrinkles in up to five garments at a time with one 20-minute dryer cycle.

Less Time with Your Iron

Who likes ironing? No one. The EasyIron™ Option lightly moistens clothes to make ironing easier and more efficient.

Never Cling

That stowaway sock won't be attached to your pant leg any longer. The ReduceStatic™ Option virtually eliminates static cling.

Accurate Drying

LG's Sensor Dry System measures the moisture levels during the cycle and automatically adjusts the drying time, assuring you get dry laundry every time.

Call, Connect, Resolve

SmartDiagnosis™ uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.
