- Elegant Hidden Vent

Stainless Steel

Smooth White

OVER-THE-RANGE

Warming Lamp

Never worry about serving cold food again with our warming lamp technology. This special feature maintains heat levels at 200°F, 170°F, 140°F and 100°F for a period of 90 minutes or less.

* The "Warming Lamp" feature keeps food warm by using a radiant heat element source not a bulb or microwaves.

Glide & Spin™

This combination sliding tray and turntable moves side to side and spins ensuring food is evenly cooked. Use the sliding tray for large casserole dishes up to 15" long and the tray & turntable for dishes smaller than 12".

WideView™ Window

The oven's wide window makes it easy to view your food while cooking, and the horizontal keypad keeps the controls at eye-level and convenient to access.

Halogen Cooktop Lighting

Lighten up! Convenient halogen cooktop lighting not only illuminates your cooking space, but it does so with bulb technology that is brighter than conventional incandescent bulbs.

LMV2085
