- ExtendaVent™ 2.0
- EasyClean® Interior
- Energy Savings Key
- QuietPower™ Ventilation System
- LED Cooktop Light
- Electronic Controls

Black Stainless Steel

OVER-THE-RANGE

Largest Capacity*

With the **largest capacity at 2.2 cu.ft.**, there's always plenty of room to heat large items.

**Based on manufacturers' published specifications of over-the-range microwaves as of January 2014.*

Clear the Air

Say goodbye to smoke and lingering cooking smells and hello to LG's enhanced ExtendaVent™. Where most over-the-range microwaves only cover the rear of the cooktop, **2nd Generation Slide-out ExtendaVent™** provides powerful ventilation over the entire cooktop, back to front. That's what we call clearing the air.

Don't Sweat the Splatters

Spills? Splatters? Don't sweat it. LG's **EasyClean® interior** resists stains and buildup, so cleaning your microwave doesn't have to be a chore. Simply wipe with a damp cloth—no chemicals, no scrubbing, no problem.

Save Your Energy

LG's **Energy Savings feature** turns off the display when it has been inactive for 5 minutes. This feature saves energy by dropping the overall power consumption to less than 0.1W.

Perfectly Cooked Meals

Sensor cooking technology measures humidity levels inside the oven to automatically adjust cooking time and power for deliciously perfect results.

Premium, Stylish Design

Why choose between style and power? LG brings elegance and clean lines to your over-the-range microwave and beauty to your kitchen.
