reddot design award  
honourable mention 2012

ENERGYSTAR® qualified models use at least 20% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

Linear  
Compressor

# FRENCH DOOR

## Quick, Easy Access

Our exclusive LG Door-in-Door Design allows quick and easy access to healthy snacks, beverages and frequently used items for the whole family.

## Super Capacity

Our largest capacity refrigerator. With 31 cu.ft., you can store more food than ever before. More storage space means less trips to the grocery store.

## More Shelf Space

Most ice makers take up space in the fridge. Our Slim SpacePlus™ Ice System is located on the door, so you end up with more storage space on the top shelf--and you still have storage space on the door as well.

## Fresher is Better

Our Smart Cooling Plus System maintains the optimal humidity and temperature levels in your fridge, which means your food stays fresher, longer. Meanwhile, a Fresh Air Filter removes odours and the Multi-Air Flow design means your food stays fresh no matter where you put it.

## Call, Connect, Resolve

SmartDiagnosis™ uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.

## Peace of Mind

When you buy a refrigerator, you don't want to worry that it won't last. Because the Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10-year warranty.
