- 8 Electronic Temperature Sensors
- Bacteria-Busting BioShield™ Door Gasket Technology
- Door Alarm
- LoDecibel Quiet Operation

ENERGY EFFICIENCY

- EnergyStar® Rated: 611 kWh/yr

SIDE-BY-SIDE REFRIGERATOR WITH BUILT-IN TELEVISION

15" LCD TV

Why integrate a TV into a refrigerator? Why not! Counter space is at a premium in kitchens today and that is typically the only location for a TV. Kitchens are fast becoming the place for families to gather, not only for cooking and eating, but for having fun as well! The 15" LCD screen provides excellent picture quality and also has an FM radio that the whole family can enjoy together.

Bacteria-Busting Bio Shield™ Technology

The Door seal is injected with a substance that prevents proliferation of bacteria and spores, and keeps it from distorting.

OptiFresh™ Crisper Bin

Optimizes both humidity and temperature to extend the life of all your leafy vegetables.

SpacePlus™ Ice System

Enjoy 11% (1 cu.ft) more usable freezer space thanks to the self-contained ice maker located in the freezer door. Now you can store that additional gallon of ice cream or a few more of your favorite frozen foods. The ice storage bin is also removable for portability and easy-cleaning.

Digital LCD Control Panel with Ice & Water Dispenser

Located on the outside of the freezer door, allows for convenient changing of refrigerator and freezer temperatures, ice and water, child lock, recipes, information and family photo album.
