

DVD-HD860

Hi-Def Conversion DVD Player

An HDTV or a High-Def TV requires a DVD player that can deliver equally breathtaking visuals and sound. Samsung's DVD-HD860 can take conventional video and audio signals and upconvert them to breathtaking 720p/1080i quality. Through HDMI™ (High Definition Multimedia Interface) Output technology and HD JPEG playback, this DVD Player can also transfer hi-def video and audio to the HDTV without any loss in detail. Just 45 mm in height, it fits neatly into any size home theater system.

- 720p/1080i up conversion
- HDMI output
- HD JPEG playback
- Progressive scan output
- Ultra slim and sleek 45mm design
