## iQ BLOWER SYSTEM

### Superior hood performance

Home chefs want kitchens that inspire them to create. They should know their range hood will clean the air quietly and efficiently while they enjoy their culinary endeavors. We created the BEST iQ Blower System, the first intelligent and quiet range hood blower, to fulfill this home chef wish.

iQ with Guaranteed Performance System (GPS) technology calibrates the blower to any specific ducting application with the touch of a button for superior hood performance. The powerful GPS-driven internal iQ blowers operate up to 2 times quieter, clear smoke and odors for cleaner air up to 30 percent faster and are up to 22 times more energy efficient to surpass all other range hoods in sound, performance and energy use. With iQ, home chefs can be confident their range hood will perform effectively to enhance their cooking experiences.

### SUMMARY FEATURES

- Calibrates to any ducting application
- 2x quieter
- Clears air 30% faster
- 22x more energy efficient
- Flexible for every installation
- Choice of iQ6 with 800 or iQ12 with 1500 maximum CFM
- Exclusive to BEST range hoods
