ACCESSORIES

Ductless Vent Grate Kit

A 4" high stainless steel vent grate which is installed below the cabinet to recirculate the air back into the kitchen when ducting outside is impossible or impractical. Includes the stainless grate, installation hardware and charcoal filters

24" - # DUCTGRT24
30" - # DUCTGRT30
36" - # DUCTGRT36

Replacement Charcoal Filters

FILTER1

For recirculating installations, high quality, heavy duty filters ensure the removal of smoke and odors from the kitchen.

CFM Reducer Kit

CFMRED

For use in make up air environments where an under 300 cfm hood is required. This kit reduces the ducting to 5" round and reduces the cfm to under 300. NOT FOR USE WITH 48" size hood

Universal Make-Up Air Damper

6" - # MUDAMPER6
8" - # MUDAMPER8

Satisfies current make-up air requirements, this kit uses an air switch above the hood to activate the make-up air damper to open and bring fresh air into the home whenever the hood fan is operating and then close tightly when the hood is off. The CFM level is not reduced by using this kit.

WARNING! Product specifications are subject to change without notification. Consult the installation instructions before you begin installing this rangehood.
