Super Cool & Super Freezer Functions

This unit offers a rapid and strong cooling performance. "Super Cool" quickly cools food and beverages. The « Super Freeze » function quickly lowers the temperature and freezes your food much faster than usual, so food can be stored much longer.

Super Cool & Super Freezer

For even more freshness

Precise temperature control

Using the micro-computerized control system, the temperature of the refrigerator and freezer regulates themselves automatically and individually. The separate programming provides accurate temperature control and longer shelf life.

Precise Temperature Control

LED lighting

Soft luminosity

Our appliances offer an advanced lighting system that will illuminate every corner of your refrigerator. Soft and more abundant lighting so you can easily find the item you're looking for!

Soft LED lighting

A made to measure trendy Design

Counter Depth

To adapt well to the different minimalist concepts of the more modern kitchens, the size of the appliance has become an essential feature .

The height and width of our units are designed to be built in and render the space both attractive and practical.
