KTV30XV

30" TELESCOPIC EXTENSION VISOR HOOD

Complete your Bertazzoni kitchen with this practical visor hood.

Choose among 3 extraction airflow speeds, reaching a maximum flow performance of 600 CFM (cubic feet per minute).

Easily control all hood functions including the telescopic extension feature with ease using the slider controls.

Enjoy powerful illumination of the cooking surface with the long lasting and bright LED lights which also don't create additional heat and are energy efficient.

Filter out odors and grease with the aluminum mesh filters which can be easily cleaned periodically in the dishwasher or by hand.

The hood comes standard for venting outside the kitchen but, can be easily modified for recirculation by installing the optional charcoal filter kit.

Designed with pride by Bertazzoni in Italy.

Industry leading 2 years parts and labor warranty.

KTV30XV

30" TELESCOPIC EXTENSION VISOR HOOD

PRODUCT DIMENSIONS

Hood Clearance

Recommended height above cooking surface: min 24" for electric worktop min 30" for gas worktop

CUTOUT DIMENSIONS

33" 7/16

ELECTRICAL CONNECTION

The Power Supply Cord and plug must be connected to a separate 120 Volt AC 60 Hz, 15 Amp or more branch circuit, single grounded receptacle.

The cord has a 3-pronged plug and must be installed into an outlet that is properly grounded.

The electrical receptacle must be within the minimum cord length of 47" 1/4.
