## 48" 6-BURNER AND GRIDDLE, DUAL FUEL ELECTRIC DOUBLE SELF CLEAN OVEN PRO48 6G DFS X

Bertazzoni Professional Series ranges bring the authentic experience of Italian cooking to the heart of your home. They are available in stainless steel and six beautiful colors inspired by the wonderful produce of Emilia, the heartland of Bertazzoni. The Professional 48-inch double oven dual fuel range has a self-clean main oven with European convection, providing balanced air flow and even heat distribution for single and multi-level roasting and baking with no flavor crossover. The useful auxiliary oven has four cooking modes. The main oven includes telescopic glide shelves and quadruple-glass windows to minimize heat loss. The beautiful worktop is precision-molded off of one sheet of stainless steel. It is configured with six versatile gas burners in brass, including Bertazzoni's signature dual-ring power burner with independently controlled flames for high power to delicate simmer, and an electric griddle in stainless steel. The worktop is designed for high-efficiency in heat delivery without energy waste. Each burner is equipped with the thermocouple gas shut-off safety system for maximum safety. Complete your Bertazzoni range with any of the available ventilation and backsplash solution, as well as low profile trim, toekick and other beautiful accessories.

### BRASS BURNER

Bertazzoni's exclusive power burners in brass have independently operated flame rings giving maximum flexibility of operation from delicate low simmer to full power.

### TELESCOPIC GLIDE SHELVES

The telescopic oven rack provides more convenient oven access and easier handling of hot and heavy dishes.

### TECHNICAL SPECIFICATIONS

<b>Voltage, frequency</b>	120/208 V - 120/240 V, 60Hz
<b>Max Amp Usage, power rating</b>	32 A - 6700 W, 37 A - 8500 W
<b>Certification</b>	CSA
<b>Warranty</b>	2 years parts and labor

### INSTALLATION INSTRUCTIONS

Bertazzoni recommends to operate the appliance after it has been installed in a cabinet. The kitchen cabinets shall be made of materials capable of withstanding temperatures at least 117°F (65°C) above room temperature in order to avoid possible damage to the cabinets during oven usage. For further installation instructions refer to the installation manual.
