## ELECTRICAL & WATER CONNECTION

E

A properly-grounded, horizontally-mounted electrical receptacle should be installed according to this drawing.
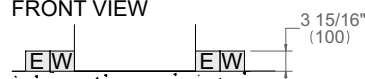

W

To connect the water mains to the water inlet valve thread, use a 3/8" water inlet hose and 3/4" metal adapter with a length of 60" (1524) (not supplied).

3 15/16" (100)

Connections placement must be located on either side of the cutout.

Dimensions in parentheses are millimeters unless otherwise specified.

INSTALLATION REQUIREMENTS

Follow local codes & ordinances for drain requirements. Install a waste line with an air gap (not supplied) or, alternatively, at least 30" (762) high drain loop to prevent backflow. Drain hose is 74" (1880) long. Drain hose must be connected at minimum 20" (508) from the floor.

For complete installation details refer to the installation manual at us.bertazzoni.com or ca.bertazzoni.com
