Bring Italian design and precision into your kitchen with the Bertazzoni warming drawer, engineered to install proud or flush in any type of kitchen cabinet.

Keep food warm before or during the meal with the lateral convection system and variable temperature control up to 170F.

Pre-heat dishes and serving bowls to better enjoy food when served.

Load heavy items from the sides without lifting thanks to the open sides drawer construction.

Generate even heat across the entire surface with the tempered glass bottom finishing.

Designed with pride by Bertazzoni in Italy.

Industry leading 2 years parts and labor warranty.

ELECTRICAL CONNECTION

FRONT VIEW

For single ovens installed into a wall cabinet, the electrical junction box may be located above, below to the left or right of the unit within reach of the power cord. Placement within the opening may require additional cabinet depth.

INSTALLATION REQUIREMENTS

See BERTAZZONI DESIGN GUIDE

INSTALLATION OPTIONS

This product is designed to be installed in combination with other Bertazzoni ovens.

No support shelf needed in case an oven is installed above the drawer. See several installation options shown in the BERTAZZONI DESIGN GUIDE.
