

BERTAZZONI MASTER SERIES

30" CONVECTION STEAM OVEN MAS CS30 X

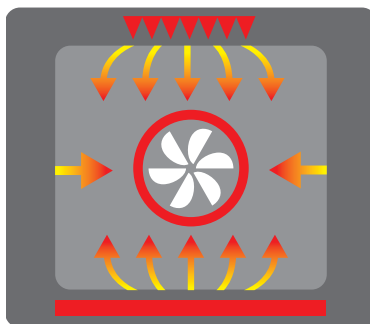

The Bertazzoni Master Series Convection Steam cooking oven combines convection baking, grilling and steam and delivers the healthiest and most flavorful cooking results. Using water-generated steam in the cooking cycle in addition to convection helps maintaining balanced moisture in the food while sealing flavors and vitamins. This beautiful oven installs flush with the cabinet doors and integrates seamlessly with specialty ovens and warming drawers in both vertical and horizontal combinations.

INTUITIVE CONTROLS

Bertazzoni ovens use stainless steel metal knobs to select cooking modes and temperature, while the intuitive interface lets users program time and other functions.

PERFECT BAKING

The European convection system ensures even roasting and baking on multiple levels with no flavor crossover.

INTEGRATED DESIGN

All Bertazzoni ovens install flush with the cabinet doors and integrate seamlessly with specialty ovens and warming drawers in both vertical and horizontal combinations.

Oven levels	2
Wire shelves	1 stainless steel
Tray	1 stainless steel 40 mm deep, 1 perforated stainless steel 20 mm deep
Oven lights	single

TECHNICAL SPECIFICATIONS

Voltage, frequency	208-240 V/60Hz
Oven volume	1.10 ft ³
Max Amp Usage	15 A – 2900 W
Certification	UL
Warranty	2 years parts and labor

For any combinations of built-in models, please see related installation drawings

INSTALLATION INSTRUCTIONS

Bertazzoni recommends to operate the appliance after it has been installed in a cabinet. The kitchen cabinets shall be made of materials capable of withstanding temperatures at least 117°F (65°C) above room temperature in order to avoid possible damage to the cabinets during oven usage. For further installation instructions refer to the installation manual.
