

CARBONIO FRONT DOOR PANELS FOR 36" BUILT-IN FRENCH DOOR REFRIGERATOR

SP36FDCV

Italy is known for its mastery in artisan metalwork and inspires the world with the artisans' remarkable precision and pristine finishes. Channeling this spirit of perfection, Bertazzoni meticulously infuses their products with the same traditions and high-quality standards, transforming standard appliances into functional pieces of art.

Carbonio Finish

Bertazzoni's unyielding dedication to blending design and durability shines through in the introduction of the groundbreaking Carbonio finish. It stands not just as a finish, but as a bold declaration of our devotion to crafting beauty that withstands the test of time.

Defining Kitchen Confidence

Carbonio is a matte graphite shaded finish that conveys confidence and strength. This sleek new finish fully envelops the door for a seamless and sophisticated look.

Crafting Tradition

The new Carbonio finish symbolizes Bertazzoni's never-ending commitment to creating beautiful yet durable finishes. Drawing inspiration from Italy's famed artisans, known for their masterful attention to detail, Bertazzoni crafts appliances that pay homage to these metalworking traditions, refined over countless generations.

A Stylish Testament to Durability

Our engineering team, joining forces with automobile industry experts, who have created a unique, deep, and radiant finish. Employing techniques honed over the years to achieve the pinnacle in car finishes, the Carbonio finish stands as a testament to durability and beauty. Its subtle textured surface finish and hard-wearing nature resists both acid and temperature corrosion. The result is meticulously balanced testament to endurance and timeless elegance.

Carbonio Panels and Professional Titanium Handle Kits

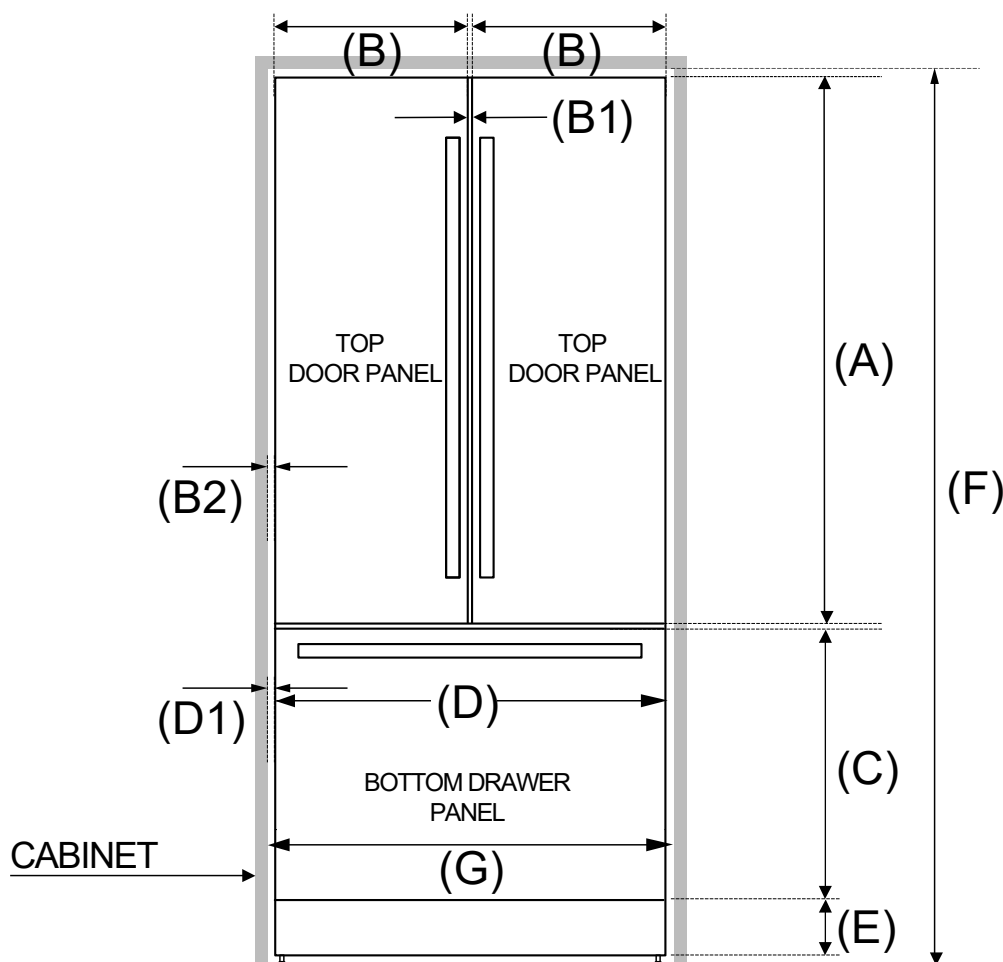

Carbonio panels, paired with matching Professional Titanium finish handle kits, are designed to enhance the aesthetic harmony of your kitchen. These components allow you to create a cohesive Bertazzoni kitchen suite in the sleek Carbonio finish—spanning cooking appliances, ventilation, refrigeration, and dishwashing solutions.
