BERTAZZONI DESIGN SERIES 30" SINGLE OVEN F30 CON XT

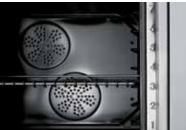

The Bertazzoni traditions of engineering excellence, culinary expertise and Italian design come alive in the Design Series wall ovens. These stunning ovens' exceptional, energy-conscious performance is enhanced by the intuitive and easy-to-use touch control interface. With 11 functions, 7 shelf positions, and the exclusive Assistant function which lets you build, store and manage your own bank of cooking methods, the new Bertazzoni wall oven is the perfect partner for the ultimate user experience in your kitchen.

LCD TOUCH INTERFACE

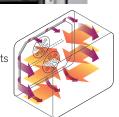

The intuitive interface with touch controls and a clear graphic display turns the oven into the perfect partner to your cooking skills. The exclusive ASSISTANT function pilots the oven through the most appropriate sequence of cooking modes, times and temperature for each type of food.

DUAL DIAGONAL CONVECTION

Two large-blade fans positioned on the diagonal axis, a baffle and subsidiary air vents at the top and bottom of the oven cavity provide balanced airflow and even heat distribution.

ITALIAN GLASS HANDLE

The sophisticated flush stainless steel and glass oven door design is enhanced by the signature translucent glass handle handcrafted in the Venice region of Italy.

ASSISTANT

Created with the help of renowned Italian chef consultant Roberto Carcangiu, the BERTAZZONI ASSISTANT provides you with a finely-tuned bank of cooking sequences for each type of food and oven preparation. Enjoy selecting the sequences that best suit your own style of cooking and culinary taste, store them for future use and build your own bank of cooking methods.

MANAGE

Select ingredients, weight, type of cooking and desired results and let the Assistant manage the best cooking sequence for a perfect dish.

When a dish is prepared to your satisfaction, the Assistant lets you name and store the sequence for future use.

Repeat any cooking sequence that you have previously perfected and stored for future use with the help of the Assistant.

INSTALLATION INSTRUCTIONS

Bertazzoni recommends to operate the appliance after it has been installed in a cabinet.

The kitchen cabinets shall be made of materials capable of withstanding temperatures at least 117°F (65°C) above room temperature in order to avoid possible damage to the cabinets during oven usage. The appliance must be installed into cabinetry and be supported from underneath. The air intake opening at the bottom of the door must be left unobstructed.

For a flush mount installation the surrounding cabinets doors should have the same thickness as the oven control panel (1" for all CON models). For installation of the oven in column please refer to the drawings view of model MO 30 STANE.

For under counter installation refer to the cooktop or range top installation drawing in the specific sections of this document.
