

## WCS1 Series

This elegant low-profile pyramidal hood with powerful ventilation can meet the challenges of any home chef while featuring a traditional appearance that fits into practically any kitchen.

- Powered by an internal blower system with 650 MAX Blower CFM. Very quiet less than 1 sone at normal setting.
- SmartSense® uses infrared sensors to monitor the heat coming from your range and then automatically adjusts your hood's fan speed to eliminate heat, CO<sub>2</sub>, and other cooking effluents.
- Voice activation provides hands-free operation of your range hood. Control power, fan speed, and lights using only your voice.
- Available in stainless steel and black stainless steel finishes.
- The capacitive touch slider offers precise control from beneath your range hood, allowing the hood's elegant lines to inspire.
- Heat-resistant rectangular LED modules provide excellent task lighting.
- Dishwasher-safe hybrid baffle filters effectively capture grease.
- Code Ready™ Technology (CRT) provides the ability to reduce airflow to 300 or 400 CFM to address local codes or make-up air requirements.
- Easy, single-person installation.

## AIRFLOW PERFORMANCE

HVI-2100 CERTIFIED RATINGS comply with new testing technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at 0.1 and 0.25 in. static pressure at high speed based on tests conducted in an HVI-approved state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements.
