

COMO

WALL-MOUNT

ASPIRE SERIES

Como combines arched glass wings and stainless steel to create a light and airy environment...the perfect centerpiece for any contemporary kitchen. This gently flowing design is powered by a 600 CFM blower that can handle the demands generated by today's cooktops. The multi-function electronic controls with LCD display, manages the halogen lighting and 4-speed, 600 CFM blower and even has a sensor that tells you when to clean your dishwasher-safe, stainless steel microhole filter.

Designed for standard ducted installation, Como can also be installed as a recirculating system using the Recirculating Kit, available as an accessory.

SPECIAL FEATURES

Elica Heat Guard: A technology that protects the hood and cabinetry from excessive heat, by sensing extreme temperatures and automatically adjusting blower speeds accordingly.

Elica CRS: CFM Reduction System (CRS), is an exclusive feature to Elica hoods, which enables the installer to reduce the maximum blower CFM, to meet local code requirements.
