PILATO

WALL-MOUNTED HOOD

Pilato features an elegantly rounded front that softens the unit's striking angles and "pro kitchen" profile. Available in 30" or 36" width, Pilato features include a powerful 600 CFM blower, halogen lighting with 2 light intensities, stainless steel mesh filters, and high-tech multi-function LCD controls that deliver convenience and safety. Pilato's 21^{1/2}" depth and greater air capture capacity make the unit an excellent choice over pro-style stoves. Designed for standard ducted installation, Pilato can also be installed as a recirculating system using the Recirculating Kit, available as an accessory.
