

# STONEY WALL-MOUNT

LED light with dimmer

Sensor Technology

The pairing of glass and brilliant stainless steel, make it ideal for any kitchen and will blend perfectly with other appliances. Perimeter Aspiration technology helps to achieve Top Performance by delivering more powerful and efficient fume extraction, plus it reduces noise. Available in 30° & 36° widths. Stoney includes a powerful 600 CFM blower, LED lighting with dimmable feature and glass capacitive touch controls. Like all of the hoods from Elica Techne Plus, Stoney is also meant for anyone who loves high-technological solutions, where Elica hoods and cooktops automatically communicate with one another, recognizing quality and quantity of cooking vapors, thus accordingly adjusting performance levels.

# STONEY

### FEATURES

Size (in) & Type	30" or 36" wide Wall-Mount Chimney	
Finish	Stainless Steel with Black Glass	
Controls	Touch Control 3S+ Booster	
Illumination	2 LED Premium Dimmable Lights	
Installation Type	Ducted or Recirculating with Installation Kit (sold separately)	
Blower Type	Speed 1: 160 CFMs Speed 2: 280 CFMs Speed 3: 470 CFMs Speed 4: 600 CFMs	
Noise (sones):	Min: 1.53, Max: 6 Sones	
Filter Type	Aluminum Mesh Filter + Perimeter Aspiration	
Duct Transition	Top Round 6"	
Electrical	120V - 60 Hz 460 Watt at 3.7 Amp	

### Line Drawing

	EST630SS	EST636SS
Α	30" (76 cm)	36" (91.2 cm)
в	19%" (50.5 cm)	
C*	Max: 42¼" (107.3 cm) Min: 281‰" (71.8 cm)	
D**	Max: 384‰4" (98.3 cm) Min: 243‰4" (62.5 cm)	
Е	6" (15.2 cm)	
F	10 <sup>35</sup> /4" (26.8 cm)	
G	13½2" (33.1 cm)	
н	23 <sup>1</sup> ‰" (60.8 cm)

\*\* Ductless (Recirculating) versic

### Accessories

**Optional Recirculating Kit** CODE: KIT0141925

**Optional Long Chimney Extension** CODE: KIT02785

### **Consumable parts**

Charcoal filter Replacement CODE: KITO141918

Grease Filter Replacement CODE: GF04YB

Consumable parts are sold in units of one (1). O rder accordingly.

### llica Design Center

#### products not only able to light the cooktop, but the entire kitchen space. And so the hood is transformed: from a kitchen appliance to a true lighting element. Considering the design of Elica hoods, it is not hard to imagine how this option is unique, and represents one extraordinary point of strength for us.

AMBIENT LIGHT

The Dimmer allows you to adjust the brightness of the light as you wish. With Elica, lighting is customized in a discreet, personal and practical way, in order to contribute in creating the perfect kitchen atmosphere.

Elica studies on hood lighting leaves no stone unturned. Here we have thought about

#### SENSOR TECHNOLOGY

Some Elica range hoods come equipped with a sensor that measures temperature and the amount of moisture, grease and vapers generated by the cooktop. The hood analyzes the readings and automatically adjusts the blower to achieve top ventilating performance and perfect air quality.

#### TOP PERFORMANCE

Excellent performance for models equipped with this plus. High fume capturing capacity with an average aspiration range of 600 CFM's. With a noise level between 60-65 db(A) at maximum speed (reference point varies based on the hood category).

#### HUSH SYSTEM

An exclusive sound deadening technology that effectively reduces sound levels by over 35%, compared to typical range hoods.

#### PERIMETER ASPIRATION

First developed by Elica, this technology literallyturned the market 45 degrees and opened the doorto hoods that could be mounted on the wall likepicture frames. The technology draws air through a narrowed channel around a face plate, which increases suction, without increasing blower speed or energy consumption.

#### WIRELESS CONNECTIVITY

The wireless connection ensures constant communication between the induction cooktop and the cooker hood. Usage information of the cooktop (activated zones, cooking power and presence of pots) are transmitted in real time to the hood that processes them. The hood then selects automatically the optimum operating level to ensure a better quality of the air inside the kitchen. In this way it is possible to focus entirely on the food preparation. The hood turns off automatically when it is no longer necessary extracting cooking fumes, thus avoiding a waste of energy.

#### CFM REDUCTION

CFM Reduction System (CRS), is an exclusive feature to Elica hoods, which enables the installer to reduce the maximum blower CFM, to meet local code requirements.

#### LED LIGHT

LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.
