3X LAYER GREASE FILTER - Elica aluminum mesh filters are a step above competition, featuring triple layered, anodized aluminum that is woven into a highly dense mesh. The thick mesh captures more grease, anodization helps resist staining and provides durability to repeated cleanings in the dishwasher.

LED LIGHT - LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life is over 20,000 hours, and should last the full life of the hood.
