

## TRENTO INSERT

ELICA PRO SERIES

LED light

IN/OUT Backlit Knob

Trento provides professional grade performance, while being discreetly mounted inside the cabinetry.

It is available with a 1200 CFM blower for extraordinary ventilating power. Plus the All-In-One design avoids the need to purchase a stainless liner. Hidden metallic in/out knob controls operate the 4-speed blower and LED lighting.

A cleaner kitchen is ensured by Elica's patented angled baffle filters, which capture a higher percentage of contaminants and hold larger volumes of grease than traditional baffle filters.

**HUSH SYSTEM**  
An exclusive sound deadening technology that effectively reduces sound levels by over 35%, compared to typical range hoods.

**LED LIGHT**  
LED lighting is undoubtedly the smartest solution in terms of energy saving. Expected life time of over 20.000 hours, represents the most remarkable advantage of LED light bulbs.

**PROFESSIONAL PERFORMANCE**  
Special features and very high performances for models with aspiration capacity between 600 and 1200 CFM's, and noise level between 65 and 75 db(A) at maximum speed. The ideal complement of PRO ranges.

**HEAT GUARD**  
A safety feature that protects the hood and cabinetry from excessive heat, by sensing extreme temperatures (>158 degrees) and will automatically adjusts the blower speed to HIGH. Blower speed will automatically adjust back once temperatures drop to a safe level.
