

VERSITILE VENTILATION

The Inca In-Light by Faber features a flush mounted stainless panel which hides the grease filters and reduces noise. With an advanced perimetric filter system, electronic controls, and an included remote control, the Inca In-Light packs a lot of features in a small body that fits into 12" deep cabinets.

AVAILABLE MODELS

Model #	FUN #	Size / Color	Motor Class (CFM)
INLT21SSV	305.0624.299	21" Stainless Steel	295/395/600 CFM
INLT28SSV	305.0553.524	28" Stainless Steel	295/395/600 CFM
INLT35SSV	305.0624.300	35" Stainless Steel	295/395/600 CFM

BUILT IN FLUSH MOUNTED RANGE HOOD NOW WITH **VAM TECHNOLOGY** AND A DEPTH OF 11 1/4" MAKING IT AN **IDEAL** CHOICE FOR SHALLOW DEPTH CABINETRY

LINER SPECIFICATIONS

Liners are stainless steel kits that are optional for cabinet insert hoods. They create a metal perimeter to “line” the wood below the range hood with metal. They create a more finished look and move the range hood up creating additional capture area. In some cases, a liner may be required by local code if the cabinet starts at below 30” off the stove (check local building codes). All liners are adjustable in depth with a telescoping frame.

LINE30ST - USE WITH INLT28 ONLY FOR 30” WIDE CABINETS

LINE36ST - USE WITH INLT28 ONLY FOR 36” WIDE CABINETS

LINSPT301228 / LINSPT361228 SELF SUPPORTING LINER USE WITH INLT28 ONLY

The liner is installed with screws against the walls of the cabinet, aligned with the cabinet bottom. The hood is installed onto the thick metal interior portion of the liner and is fully supported by the liner.
