Freestanding Range

Signature Features

Faster Boiling with Induction Finish meals faster with our induction technology, including four elements that are more responsive than gas and electric ranges bringing water to a boil in two minutes.

Six-Minute Quick Preheat Preheat in less than six minutes.¹

Reduce Cleanup Time Our induction cooktop reduces cleanup time. It heats the pan, not the cooktop — so spills can't burn on.

True Convection Single convection fan circulates hot air throughout the oven for faster and more even multi-rack baking.

30" Induction

Product Dimensions

| Height (Max.) | 47-3/4" |
|---------------------------|---------|
| Width | 29-7/8″ |
| Depth (Including Handles) | 29″ |

More Easy-To-Use Features

Quick Clean

Our one-touch self-cleaning button gives you a clean oven — fast.

Smudge-Proof™ Stainless Steel Reduces fingerprints and smudges so it's easy to clean.

Effortless[™] Temperature Probe with Auto Keep Warm

Take the guesswork out of cooking with the Effortless[™] Temperature Probe that shows you the internal cooking temperature of your food instantaneously. You can set the desired finished temperature and the oven alerts you when that temperature has been reached. The oven then holds the desired temperature of the meat by switching to a keep warm function for better cooking results.

Keep Warm Zone

Keep food warm until everything – and everyone – is ready.

Built with American Pride

Appliances that are high-performing, more accessible, and more innovative than ever — designed, built, and engineered in the U.S.A.

Sabbath Mode (Star-K[®] Certified)

Available in:

Stainless

(F)

| Elements | Size | Watts |
|-------------|-------------------|-------------|
| Right Front | Induction 10" | 2,600/3,800 |
| Right Rear | Induction 5" | 800/1,000 |
| Left Front | Induction 7" | 1,920/2,640 |
| Left Rear | Induction 6" | 1,450/1,900 |
| Center | Keep Warm Zone | 100 |

¹Based on single rack cooking performance, not set temperature, using Quick Preheat.

Freestanding Range

FGIF3061NF 30" Induction

•

297/8"

Freestanding Range Specifications

- Product Shipping Weight (approx.) 220 Lbs.
- Single phase 3- or 4-wire cable, 120/240 or 120/208 Volt, 60 Hertz, fused on both sides of line with ground.
- Connected Load (kW Rating) @ 240/208 Volts = 15.5/12.0 kW
- Recommended Circuit Breaker 40 Amps
- Always consult local and national electric codes.
- Make sure wall coverings around range can withstand heat generated by range.
- Floor beneath range MUST be solid and level.
- Overhead cabinetry should not exceed a 13" maximum depth.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.
- Range can be installed flush to wall with O" minimum rear clearance.
- Minimum 1" clearance required from edge of rangetop to nearest combustible wall on either side of range above 36" height.

- Allow 30" minimum clearance between top of cooking surface and bottom of unprotected wood or metal overhead cabinet; or 24" minimum clearance when bottom of wood or metal overhead cabinet is protected by not less than 1/4" flame retardant millboard covered with not less than No. 28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.
- Follow all dimension requirements provided to prevent property damage, potential fire hazard, and incorrect countertop and cabinet cuts.
- Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.
