Installation Drawing

When installing freezer adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 125° door swing, providing complete basket access and removal. (Absolute 3/8" minimum clearance will ONLY allow for 90° door swing which will provide limited basket access with restricted removal.)

Note: For planning purposes only. Always consult local and national electric, gas and plumbing codes. Refer to Product Installation Guide for detailed installation instructions on the web at [frigidaire.com / frigidaire.ca](http://frigidaire.com/frigidaire.ca). Specifications subject to change.
