#### 15" Drawer Pedestal Installation

Elevates dryer height to 51'/4". For detailed pedestal installation, refer to instructions included with pedestal or on web.

Note: Pedestal Installation requires modified utility hookup locations. For details, refer to Product Installation Guide on web.

#### **Built-In Installations**

For built-in installations, NO minimum clearance required around sides or backs of units. For closet installation, allow additional 1" clearance between fronts of units and door. Location of plumbing, exhaust and utility hookups MUST be considered in built-in installations. For additional installation details, refer to Product installation Guides on web.

Side-by-Side Units in Under-Counter Installation

Can be installed with standard countertop and/or cabinetry.

To achieve minimal installation depth dimensions, dryer MUST be vented straight back. For installation with quick-turn 90° elbow, refer to Product Installation Guide on web for approximate clearances incurred with multi-directional exhausting options in freestanding, pedestal-mounted, or stacked installation.

#### Stacked Units in Recessed or Closet Installation

For detailed stacked installation, refer to instructions included with Stacking Kit or on web. **Note:** Stacked installation requires modified utility hookup locations for dryer. For details, refer to Product Installation Guide on web.
