

JS998SK

GE Profile™ 30" Slide-In Electric Range with Trivection™ Technology

Dimensions and Installation Information (in inches)

KW Rating	
240V	12.8
208V	8.7
Breaker Size	
240V	40 Amps
208V	40 Amps

Note: Cabinets installed adjacent to slide-in ranges must have an adhesion spec of at least 194° temperature rating.

Note: To reduce the possibility of scorching the side walls above the countertop when no load is present on burners, it is recommended that a minimum 6" spacing from adjacent side wall be allowed for possible extended high-heat element operation.

Receptacle Locations: For all 30" Slide-In Ranges locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against rear wall.

Optional Kits For Slide-In Electric Ranges (Available At Additional Cost)

Accessory Backguards
(Attaches to the back of range as a backguard when unit is installed in 30" free-standing cutout)

JXS32SS (Stainless) - 4" High
 JXS32WW (White) - 4" High
 JXS32BB (Black) - 4" High
 JXS37WW (White) - 5-1/4" High
 JXS37CC (Bisque) - 5-1/4" High
 JXS37BB (Black) - 5-1/4" High

Body Sides
(Slide-in ranges are sold without sides installed. Can be installed on either left or right when unit has one exposed side [no cabinet adjacent]. Kit contains 1 body side)

JXS77WW (White)
 JXS77BB (Black)

Rear Filler Strip
WB07T10680 - Black Filler Strip Assembly

Optional Lower Trim Kits
(If counter height is greater than 36.5", a lower trim kit is recommended to extend the useful height to 38" maximum)

JXS56WW - White
 JXS56BB - Black

Installation information: Before installing, consult installation instructions packed with product for current dimensional data.

For answers to your Monogram®, GE Profile™ or GE® appliance questions, visit our website at ge.com or call GE Answer Center® service, 800.626.2000.

All GE ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.
