See over 12,000 movies and TV episodes — out of the **blu.**

The World's First Blu-ray Disc Player
that Streams from Netflix—Instantly.

Introducing the LG BD300 Network Blu-ray Disc Player.

Now you can enjoy more movies and TV episodes in the blink of an eye. The all new BD300 Network Blu-ray Disc player gives you unlimited instant access to over 12,000 Netflix movies and TV episodes. All you need is a broadband internet connection and Netflix subscription—a free 2-week trial is available through Netflix!*

Best of all, with Full HD 1080p resolution and 1080p upscaling, this Blu-ray Disc player is the ultimate in home entertainment—you'll see.

*Not all movies stream instantly. Included with most Netflix plans. Netflix subscription required. Subscription sold separately. Free trial offer may end at any time. Choose from a smaller library of classics, TV episodes and some new releases.

Only LG Offers **3** Ways to Enjoy your Blu-ray Disc Player.

Watch your favorite Blu-ray movies in Full HD.

View standard DVDs in near-HD upscaled to 1080p.

Instant unlimited access to over 12,000 classic movies and TV episodes in standard definition.

- Choose from a separate smaller library of Classic, TV episodes and some new releases
- Near DVD picture and sound quality
- No ad breaks or trailers
- Movies start in as little as :30 seconds
- Fast-forward, rewind, pause and watch again and again

Plus...

BD-Live gives you access to additional web-based content provided by movie studios like movie trailers, ringtones and more.

Get superior sound through the latest advanced digital audio formats.

- Dolby® TrueHD/Digital Plus (7.1ch)
- DTS-HD Advanced Digital Out

LG BD300 Network Blu-ray Disc Player FAQ

What is the BD300 Network Blu-ray Disc player and why is it better than standard Blu-ray Disc players?

It is a fully functioning Blu-ray player that plays Blu-ray Discs and standard DVDs, plus it offers instant access to Netflix catalog of over 12,000 movies and TV episodes.

What is Netflix and why should I subscribe?

Netflix is the worlds largest online movie rental service with over 100,000 Blu-ray Discs and standard DVD titles to choose from. Plus, Netflix offers over 12,000 movies and TV episodes that you can instantly download and watch on your TV over the internet (requires a Netflix subscription which is sold separately).

How extensive is Netflix's library of "Watch Instantly" titles?

Pretty extensive. Netflix members have instant unlimited access to a smaller library of Classics, TV episodes and some new releases. To name just a few there is: No Country for Old Men, Pirates of the Caribbean: At World's End, Spider-Man 3, Liar Liar, Unforgiven, The Office, CSI, Heroes, Weeds – the list goes on and is constantly growing.

Do I have to have a Netflix subscription?

Yes. A Netflix subscription with unlimited Blu-ray Discs and DVDs is required. Unlimited refers to the number of Blu-ray Discs and DVDs you can receive in a month. Most Netflix plans are unlimited and start at \$8.99 a month. For more information go to Netflix.com/LG.

How does Netflix Watch Instantly connect to my LG Network?

Over the internet, the LG BD300 accesses your Netflix selection. With instant streaming, movies and TV episodes don't need to be stored on your BD300 or on your computer, they just play.

I don't have an internet connection near my TV. What do I do?

There are various types of home networking options available. You can use a power-line, a wireless Ethernet bridge, or an extra-long Ethernet cable. Ask a store sales consultant about what's the best option for you, or go to www.LGusa.com/bluray for more information.

What if I don't have a broadband connection or don't want a Netflix subscription?

You'll still enjoy Blu-ray Discs and standard DVD discs with unsurpassed quality in Full HD 1080p.
