

ELECTRIC RANGE

LRE6387ST

6.3 cu. ft. Electric Range With Infrared Grill

Cooking Performance

- 6.3 cu.ft. Large Oven Capacity
- 0.8 cu.ft. Warming Drawer Capacity
- Infrared Grill System
- True Convection System
 - Convection Bake
 - Convection Roast
- 3200 Watt Element
- 5 Cooktop Elements with Warming Zone
- Extra large 12" Cooktop

Style and Design

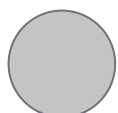

- Glass Touch Control
- Premium Tinted Oven Glass
- Brilliant Blue Interior
- WideView® Window
- Available in Premium Stainless Steel

Convenience Features

- EasyClean® Technology
- Warming Drawer
- Intuitive Touch Keypad
- 3 Full-Width Racks with 7 Rack Positions
- Interior Oven Light
- 12 Hr. Automatic Shut Off
- Self-Clean Function

Infrared Grill

Stainless Steel

ELECTRIC RANGE

Indoor Grilling

Infrared cooking uses the same technology as premium outdoor grills which allows your food to be juicier than traditional thermal cooking. With Infrared Grill, the infrared heating element gets your oven to broil temperature more quickly and takes up to 20% off your cooking time on common items like steaks and chicken breasts.

*Compared to LG's non-infrared grill ovens.

Cook for the Whole Family

With the extra large 12" burner to fit your larger pots and pans, you can make dinner for the entire family in less time. This means more time to enjoy the meal with the ones that matter most.

Fast, Efficient, Easy Clean Up

LG's innovative EasyClean® function provides a quick, efficient, effortless way to clean your oven. Using lower temperatures, a revolutionary interior, and water, simply wipe away the mess after only 20 minutes. Got a really big mess? The full self clean is still available to tackle those heavy duty clean up jobs.

Expand Your Options

The size of your oven shouldn't dictate what you can cook or for how many people. This Large-Capacity Oven gives you more space so you have the flexibility to cook more dishes at the same time. One of the largest oven capacities available at 6.3 cu. ft.

Bake and Roast Like a Pro

Great cooking takes time, but at least with this oven it takes less time. The True Convection Oven lets you pre-heat faster and provides even baking and roasting for delicious results.
