ELECTRIC RANGE

LG Design

This range is comprised with an abundance of stainless steel for a striking presentation. The stainless steel backsplash, control panel, cooktop surface, door and handle all add to the contemporary and modern look.

Spacious 5.6 cu.ft. Capacity

Cooking for a full house is no longer a tight squeeze with LG's 5.6 cu.ft. electric range. Not only can you cook a large turkey, but you'll have room for biscuits and a casserole too. The elegant blue interior complements the exterior styling and gives your range a more premium look.

IntuiTouch™ Control System

Easy to use and easy to clean, the IntuiTouch™ Control System makes operating your range a snap. The left side of the panel mirrors the cooktop elements, while the right side controls the oven functions.
