- Available in White(LMS9071 SW), Black (LMS9071 SB) and Stainless Steel (LMS9071 SS)
- 320mm Diameter Turntable

COUNTER TOP MICROWAVE OVEN

Orbit™ Round Cavity Interior:

Exclusive to LG, this unique curved design optimizes interior space, providing a larger turntable which allows the use of larger serving dishes. Cleaning is easier too because there are no hard-to-reach corners where leftover food particles can create mold and bacteria. The round cavity also improves cooking performance by providing a greater variety of angles for the microwave energy resulting in more evenly cooked food

Soften Button (Exclusive!):

Have you ever tried to soften butter, ice cream, cream cheese or frozen orange juice in your microwave oven? The oven has pre-defined options to precisely soften foods and it is the simplest solution to soften butter, ice cream, cream cheese or frozen orange juice.

Melt Button:

Try to melt chocolate or butter in your conventional microwave oven, what happens? It splatters!! With LG's innovative MELT function, gently melt butter, chocolate, cheese and marshmallows without the mess.

LMS9071

CAPACITY

Oven Capacity (cu.ft.) 0.9

FEATURES:

Output Power	850W
Cavity Design	Orbit Round Cavity
Control Type	Touch
Display	Smart LED
Available Colours	White (LMS9071SW), Black (LMS9071SB), Stainless Steel (LMV9071SS)
