### BOTTOM FREEZERS

#### **Bottom Freezer Design**

Get better access to the foods you reach for most by placing the freezer below the refrigerator.

#### **Independent Digital Temperature Controls**

The fridge and freezer have separate temperature controls so you can adjust one without affecting the other. Located up front in the fridge compartment, the digital temperature controls are easy to reach and adjust.

#### OptiBin<sup>™</sup> Crispers with Magic Crisper<sup>™</sup> Covers

Provides an easy to use food storage environment with humidity controls. The Magic Crisper™ covers are a honeycomb panel that capture moisture and release it into the bins as required, for higher humidity and fresher foods.

#### **Environmentally Friendly**

All LG Bottom Freezer refrigerators are Energy Star® rated, which means they use at least 15% less energy than required by current federal standards. And LG uses Cyclopentane to insulate the refrigerator - an environmentally friendly material.

#### Tilt-A-Drawer™ Freezer

The freezer drawer tilts out giving you easy access to the premium pull out freezer drawer, making access easier than ever before.
