HIGH DEFINITION TELEVISION

Titanium

ENERGYSTAR® qualified models use at least 15% less energy than required by current federal standards. LG's Energy Star refrigerators allow consumers to save money, energy and protect the environment.

SIDE-BY-SIDES

15" LCD TV

Why integrate a TV into a refrigerator? Why not! Counter space is at a premium in kitchens today and that is typically the only location for a TV. Kitchens are fast becoming the place for families to gather; not only for cooking and eating, but for having fun. The 15" HD Ready LCD screen provides excellent picture quality and also has an FM radio that the whole family can enjoy together.

Weather & Info Center

Thinking outside the box has just been taken to a whole new level. Thanks to LG, now your refrigerator can do some of the thinking for you. Need to know what weather to dress for? The Weather & Info Center has you covered. The Ambient weather service provides a five-day forecast for your area. Need to whip up an appetizer in time for your party? Your refrigerator comes pre-loaded with several recipes. Not only that, but you can also store favorite digital photos and anniversary reminders. The touch-sensitive digital controls also allow you to manage temperature in the refrigerator and freezer compartments as well as monitor room temperature and reset the water filter status indicator.

OptiFresh™ Crisper

Optimizes both humidity and temperature to extend the life of your leafy vegetables.

SpacePlus™

Enjoy 11% more usable freezer space (1 cu.ft.) thanks to the self-contained ice maker located in the freezer door. Now you can store that additional gallon of ice cream or a few more favorite frozen pizzas! The ice storage bin is also removable for portability and easy cleaning.
