ELECTRIC/GAS DRYERS

Mega Capacity Dryer

At 9.0 cu.ft. it's the largest capacity dryer available. You will find yourself drying less loads and will enjoy the benefits and convenience of washing and drying large bulky items at home.

Harness the Power of Steam

LG TrueSteam[™] technology uses a steam generator to produce real steam right into in the dyer giving you unique cycle options that remove wrinkles, odours, static and allergens.

See Spots Run

Need to remove a spot in a hurry? The LG SpotClean[™] cycle enhances the performance of stain removal treatments by harnessing the power of steam to gently loosen soil, and penetrate fabrics.

The Quick Fix

Late for the party and no time to iron your favourite outfit? The SteamFresh[™] cycle refreshes and reduces wrinkles in up to five garments at a time with one 20-minute dryer cycle.

Refresh and Sanitize

SteamSanitary™ cycle refreshes and sanitizes dry items in the SteamDryer. The SteamSanitary™ cycle kills bacteria on your clothes and is great for decorative pillows and other non-washable items.

Less Time with Your Iron

Who likes ironing? No one. The Easylron[™] option lightly moistens clothes to make ironing easier and more efficient.

Never Clingy

That stowaway sock won't be attached to your pant leg any longer. The ReduceStatic™ option virtually eliminates static cling.
