- 1 Full-width Wire Freezer Shelf
- 2 Humidity Controlled Crisper Bins
- Can Server on Door

PERFORMANCE

- Ion Door Cooling System
- Deluxe Digital Temperature Controls
- LoDecibel™ Quiet Operation

ENERGY EFFICIENCY

- Energy Rating: 485 kWh/yr

TOP MOUNT REFRIGERATOR

Horizontal Pocket Handles

New horizontal pocket handles, give LG's new top mount refrigerators a modern look to a traditional configuration. Pocket handles make cleaning the surface of your fridge hassle-free! Also the hinge is reversible to accommodate every kitchen layout.

Ion Door Cooling

Cold air is released from the back of the fridge as well as from the vertical vent on the door, allowing for an overall faster cooling time, and consistent, more even temperatures, maintaining freshness throughout the refrigerator and keeping food fresher, longer.

Humidity Controlled Crispers

Provides an easy to use food storage environment with controls to make food stay fresher longer. The crispers have an upfront humidity control lever.

Deluxe Digital Temperature Controls

Digital temperature control for the refrigerator is upfront for easy access. There is also a separate Freezer dial to moderate the temperature in the freezer.
