Why Napoleon®?

Napoleon® patio heaters allow you to extend your outdoor living enjoyment past the hot summer months into the crisp weather of fall and into the spring. Warm your outdoor living area throughout the winter and start your summer early and enjoy an evening barbecue, early morning coffee, or any other outdoor entertaining pleasure. Napoleon® patio heaters generate infrared radiant heat rays which direct their energy towards you and your guests, maximizing its warmth long after the sun goes down. Infrared heat is efficient, clean burning and uses less fuel while providing ultimate comfort.

Why fight with extension cords? Napoleon's patio heaters operate using a concealed propane cylinder, requiring no electricity and offer convenient portability; natural gas models are also available to further increase fuel efficiency. The control panels are conveniently placed, and safely out of reach for children.

Napoleon® patio heaters are constructed of stainless steel or cast aluminum with sleek finishes, featuring an easy access door on propane models and are designed for permanent outside storage.

The visual appeal and radiant warmth of these modern, long life patio heaters are a welcome feature at popular hotels and resorts, fine restaurants and cafés, golf clubs, spas and ski lodges and patios. Napoleon® patio heaters will complement any backyard, patio or pool space. Go ahead, extend your day in the outdoors!

BELLAGIO™ PATIO TORCH

PTH31GTSS

Up to 31,000 BTU's
Propane
84"h x 21 ½" w x 21 ½" d

The Napoleon® Bellagio™ Patio Torch provides cozy mood lighting from an attractive single, luminous four foot flame. The unique design, which includes a protective SAFEGUARD™ screen with a 360° view of the flame, meets the demands of today's modern lifestyle and is a perfect accent for pools, decks and outdoor rooms. An inspiring mix of art and design that brings your outdoor living space to life. Optional natural gas conversion kit available.
