

NSE6DG8500SRAC

6.3 cu. ft. Electric Slide-in Range with Air Fry and Air Sous Vide

Signature Features

True Convection

True Convection circulates air to cook food faster and more evenly than a conventional oven.

Air Sous Vide

Lock in flavour and moisture and avoid overcooking using Air Sous Vide.

Air Fry

Enjoy healthier fried foods with Air Fry built right into your oven. Air Fry tray included.

Precision Knobs

Precisely control and ensure proper activation of your cooktop with integrated knob buttons that must be pinched in before the knobs can be pushed and turned.

6.3 cu. ft. Electric Slide-in Range with Air Fry and Air Sous Vide

Installation Specifications

IMPORTANT: To eliminate the risk of burns or fire caused by reaching over heated surface units, avoid having cabinet storage space located above the surface units. If you have cabinet storage space over the heating elements, you can reduce the risk by installing a range hood that projects horizontally a minimum of 5 inches beyond the bottom of the cabinets.

* A minimum of 30" is required between the top of the cooking surface and the bottom of an unprotected wood or metal cabinet; a minimum of 24" is required if the bottom of the wood or metal cabinet is protected by not less than 1/4" of flame retardant millboard covered with not less than no.28 MSG of sheet steel, 0.015" of stainless steel, 0.024" of aluminum, or 0.020" of copper.

** A minimum of 15" is required between the countertop and the adjacent cabinet bottom.

SLIDE-IN CUTOUT

Dimensions

CAUTION: This range has been designed to comply with the maximum allowable wood cabinet temperatures of 194°F. Make sure the wall covering, countertops, and cabinets around the range can withstand the heat (up to 194 °F) generated by the range. If not, discolouration, delamination, or melting may occur.
