SAMSUNG

Twin Cooling System®:

Twin Cooling System® uses two evaporators with only one compressor to independently control the temperature in the refrigerator and freezer compartments to maintain proper humidity levels and prevent odor transfers between compartments.

Multi Air Flow:

Provides even cooling throughout the refrigerator to maintain optimal temperatures to keep food fresh.

Power Freeze and Power Cool Options:

Adjusts the temperature quickly when the refrigerator or freezer compartment needs to be cooled due to repeated door openings.

External Digital Display and Control:

Controlling the refrigerator is easy with the external digital display. It shows the inside temperatures, when to change your filter and also controls the ice and water dispenser.

Compact Ice Maker and Xtra Space™ Ice and Water Dispenser:

Quick and easy access to filtered water and cubed/crushed ice at your fingertips with the upgraded external dispenser.

Tower Lighting:

Evenly distributes bright light throughout the refrigerator compartment to help you easily locate your food.

Water Filter:

Samsung's external ice and water dispenser provides filtered water and ice without sacrificing your interior space.
