

Thor Products Q & A - Dishwasher

1. For Dishwasher Installation:

The **Water Inlet** is located in front of the unit. From the back of the unit. Your **Water Outlet** is the Black Pipe. The White Pipe is part of the motor bracket – Do not connect to the white pipe. For Current designs – white pipe is blocked for fool-proofing design

(Left: Back of the Dishwasher -Black pipe for Water Outlet, Right: Current fool-proofing design for motor pipe)
