Whirlpool® | Every day, care.®

Every meal you cook, every dish you wash, every shirt you clean—that's caring. And every act of care you give, day in and day out, helps the people you love become people who love. That's why at Whirlpool, we believe that helping you care for the ones you love is the most important thing we can do.

cAre counts™
BY WHIRLPOOL

As the #1 selling appliance brand in the U.S.A.,* Whirlpool brand is not only committed to making quality appliances, but to creating environments where every family can thrive. And we continue to stand behind the people in our own backyard and beyond with nationwide initiatives like the Care Counts™ laundry program.

*Based on 12-month average of unit sales. Refrigeration, Cooking, Dishwashers and Laundry appliances. TraQline 2018.

HELPING STUDENTS THRIVE

Access to clean clothes is one barrier to school attendance and, ultimately, a student's education. To address this complex issue and help reduce excessive absenteeism, Whirlpool brand began installing washers and dryers in select U.S. schools in 2016.

Based on the initial success, Whirlpool brand is now expanding the Care Counts™ laundry program into additional school districts to bring the power of care to even more students.

50 LOADS

The 2016 Care Counts™ laundry program tracked laundry usage, learning that each participant received nearly **50 loads of clean clothes** during the school year.

86% of participants improved attendance

To date, we've installed washers and dryers in 68 schools across the nation. **Attendance improved for 86% of participants** designated as high-risk students,** and **chronic absenteeism dropped by 43%**.

With 90% of students utilizing the program being more actively engaged in their studies, **over 1,200 schools have requested the Care Counts™ laundry program**.

**Students missing 15 or more days during the school year or an average of 1.5 absences per month.

WASH AND DRY IN ONE APPLIANCE

Reinvent your laundry routine with a washer and dryer in one appliance. Innovative features on the Smart All-In-One Washer & Dryer help you do laundry in fewer steps.

HELPS PROTECT FABRICS

The Smooth Wave stainless steel wash basket helps prevent fabrics from snagging by gently guiding clothes throughout the cycle.

THOROUGH CLEANING FOR EVERY LOAD

The dual action agitator with fabric softener dispenser provides effective wash action and dispenses detergent at the right time, while select models with an impeller gently give clothes a deep clean.

DESIGNED TO FIT WHERE YOU NEED THEM

Compact washers and dryers are great for homes where room is at a minimum, especially with our most space-saving compact laundry pair design ever. Combination laundry pairs are another option to help save space while still providing plenty of capacity and high-efficiency performance.

ACCUDRY™ SENSOR DRYING SYSTEM/TECHNOLOGY

Two built-in sensors measure moisture and temperature levels to help prevent overdrying and automatically stop the cycle when the load is dry.

ACTIVE SPRAY TECHNOLOGY

Virtually eliminate the need to pretreat with Active Spray technology. It saturates clothes with a mixture of detergent and water to cover fabrics completely and evenly for better cleaning performance.

ADA COMPLIANT

Appliances with this designation meet standards set by the Americans with Disabilities Act when installed in compliance with current ADA standards.

ADAPTIVE WASH TECHNOLOGY

Senses each load type and then adapts water levels and wash actions, based on the type of load being washed, for optimal cleaning.

ADVANCED MOISTURE SENSING

Help prevent overdrying. Three sensors track moisture and temperature, adapting drying times to end the cycle at just the right time.

AIR CARE LIFTERS

Multiple streams of warm air blow straight into the drum to give your clothes an effective and delicate dry.

AUTODRY™ DRYING SYSTEM

Help prevent overdrying with the AutoDry™ drying system that senses when clothes have reached the right moisture content and stops the cycle.

AUTOMATIC WATER LEVELS

Automatic water levels regulate the amount of water based on the size of the load.

HEAVY SOIL OPTION

Optimize stain removal for your family's messes. The Heavy Soil option provides efficient cleaning action that helps break down stains and rinses away soils.

HYBRID HEAT PUMP DRYING TECHNOLOGY

Dry each load your way with our most efficient full-size dryer technology that recirculates hot air to help conserve energy. The Presoak option lets you skip soaking outside of the washer. Extra time is added in the washer before the wash cycle, which starts automatically when the option is complete.

PREWASH OPTION

Skip presoaking in the sink by hand and let the washer do it for you using the PreWash option. Additional wash time before the cycle starts helps take on heavily soiled loads that contain tough stains.

Q

QUAD BAFFLES

GREATER STORAGE FLEXIBILITY

Store more items on each shelf with wall-to-wall frameless glass shelves, which allow you to place food and drinks on the shelf without a frame in the way.

SPACE FOR TALL ITEMS

Make room for taller items like drink bottles by quickly and easily moving the Flexi-Slide™ bin from side-to-side, giving you more convenient storage options.

RIGHT ENVIRONMENT FOR PRODUCE

Keep fruits and vegetables fresh with the ideal moisture and temperature levels in humidity-controlled crispers.

FOOD LOOKS AS IT SHOULD

By casting light inside the refrigerator, LED interior lighting keeps food looking as good as it tastes.

R

REFRIGERATED EXTERIOR DRAWER

Keep items you use most within easy reach. An exterior drawer gives you additional refrigeration space and lets you adjust temperature controls and dividers based on what you're storing.

REVERSIBLE SIDE-SWING FREEZER DOOR

Instead of a freezer drawer, select bottom-freezer models feature a reversible side-swing door, which allows for additional storage bins in the door.

S

SIDEKICKS® UPRIGHT MODELS

Place the refrigerator and freezer models side by side and get up to a combined 36 cu. ft. of storage for all your favorite foods.

SINGLE-TEMPERATURE CONTROLLED ZONE

Store food and beverages the way you like them with customized temperature selection in select undercounter refrigerators and wine centers.

SMALL ITEMS BIN

Keep sight of the little things, like butter and string cheese, in the small items bin.

SPILLPROOF GLASS SHELVES

Simplify cleanup with shelves that help contain spills and prevent liquids from leaking below.

T

TEMPERATURE ALARM

Notifies you when the freezer's temperature rises to help you monitor the ideal environment for your frozen foods.

TEMPERATURE SENSOR ALERT

Keep items at their ideal temperature with an alert that lets you know if the temperature is rising or cold air is escaping through an open door.

TRIPLE CRISPER

Get more storage flexibility with two large, auto-humidity controlled crispers and a smaller center crisper.

TRIPLE-TIER FREEZER STORAGE

Quickly find frozen food in the triple-tier freezer. Three levels of organization help you avoid stacking or burying so you can see and get to frozen foods faster.

TWO-TIER FREEZER STORAGE

Easily organize frozen favorites with two tiers of storage.

TUCK SHELF

This adjustable shelf has two positions to temporarily create more space for tall items. The front half slides under the back half.

GETTING MEALS TO THE TABLE QUICKLY

That’s caring—and why our cooking features cut out routine steps so you’re ready for the unpredictable.

A SMARTER WAY TO COOK

Easily read your wall oven display with a proximity sensor that adjusts display text size based on your distance, send cooking instructions to the oven from your smartphone* using Scan-to-Cook technology** and get instant access to the settings you use most with a touchscreen.

MAKES MEAL PREP EASIER

Yummly® Guided Cooking** helps you answer “what’s for dinner?” before it’s even asked, with recipes, tutorials and prompts in the app that send cooking instructions straight to your smart appliance at the right times.†

CONTROL YOUR OVEN WITH SIMPLE VOICE COMMANDS*

Voice control with a compatible voice-enabled device** lets you control your kitchen no matter what you’ve got on your hands using the Google Assistant or an Alexa-enabled device.

COOK FOODS FASTER††

True convection cooking uses a third cooking element and a fan to distribute hot air evenly over, under and around food so dinner is ready when they are. Plus, Convection Conversion automatically converts traditional recipes for convection cooking, adjusting times and temperatures.

QUICK ACCESS TO SPILLS

Our industry-first EZ-2-Lift™ hinged cast-iron grates make cleaning simple with a hinged design that lets you wipe up the cooktop without removing the grates. And for a more thorough clean, the grates are also dishwasher safe.

FLEXIBLE, CONSISTENT COOKING

On select electric models, the FlexHeat™ dual and triple radiant elements provide multiple elements in one to fit small and large cookware. The FlexHeat™ burners on select gas models give you evenly distributed heat at both high and low temperatures with two rows of flames.

MAKES COOKTOP CLEANING EASY

Cut down on messes with the easy-wipe ceramic glass cooktop available on select electric models.

CLEAN UP FASTER

The raised edges of the upswept SpillGuard™ cooktop, available on select gas models, help contain spills.

AUTOMATIC LIGHTING

When your kitchen lights dim, glass edge LED lighting senses the change in lighting and automatically turns on to act as a night-light.

HELPS REMOVE SMOKE & ODORS

Perimetric Venting technology concentrates hood suction to targeted zones on your cooktop, helping to keep your kitchen air clean.

MORE INSTALLATION OPTIONS

Convertible ventilation allows you to either vent vapors and odors outside or filter them and recirculate the air, depending on your kitchen's setup.

MAKES CLEANUP EASY

Dishwasher-safe grease filters trap unwanted grease and odors and wash easily for re-use.

SOIL SENSOR

Determines how dirty dishes are and adjusts the Normal cycle as needed to make sure dishes come out clean.

STAINLESS STEEL INTERIOR

Retains heat from wash and rinse cycles to promote drying. The stainless steel interior also cools faster than the dishes, allowing moisture to condense on the interior walls and drawing additional water off the hotter dishes.

T

THIRD LEVEL RACK

Take advantage of 35% more rack space to load more dishes and get extra room for hard to fit items, like spatulas, large spoons or chef's knives.*

TOTALCOVERAGE SPRAY ARM

Cleans with twice the jets** for more coverage. A smarter sequence of spray patterns from multiple nozzles hits dishes throughout the cycle with increased water pressure, so you can be sure they're all clean and ready to go.

TOUCH-TOE™ DRAWER OPENER

Easily open Whirlpool® trash compactors without your hands using the Touch-Toe™ drawer opener. A light tap of the toe is all that's needed to release the drawer.

TOUCH PAD CONTROLS

Trash compactors feature easy-to-operate touch pad controls on the front of the compactor.
